The screenshot shows the 'Add Roles Wizard' window. The title bar reads 'Add Roles Wizard' with a close button. The main window has a header area with a server icon and a green plus sign, followed by the text 'Before You Begin'. On the left side, there is a vertical navigation pane with the following items: 'Before You Begin' (highlighted), 'Server Roles', 'Confirmation', 'Progress', and 'Results'. The main content area contains the following text:

This wizard helps you install roles on this server. You determine which roles to install based on the tasks you want this server to perform, such as sharing documents or hosting a Web site.

Before you continue, verify that:

- The Administrator account has a strong password
- Network settings, such as static IP addresses, are configured
- The latest security updates from Windows Update are installed

If you have to complete any of the preceding steps, cancel the wizard, complete the steps, and then run the wizard again.

To continue, click Next.

At the bottom of the main content area, there is a checkbox labeled 'Skip this page by default' which is currently unchecked.

At the bottom right of the window, there are four buttons: '< Previous', 'Next >', 'Install', and 'Cancel'. The 'Next >' button is highlighted with a black border.
